Waterproof IP68  
3G, WiFi Internet connection  
Powerful torch  
PowerBank function

## EVOLVEO StrongPhone X3

### **3G and WiFi connectivity, charging function and extremely powerful flashlight**

This phone is for all those customers who expect their phone to endure far more than the ordinary phones available in today's market. It doesn't matter if you are outside, at a construction site, being athletic, in a workshop or on the mountain trip, this phone will never disappoint you.

### **Waterproof and rugged with maximum IP68 protection**

The Phone is shock, vibration, dust and even sand resistant. It features a „USB cap-less“ waterproof micro USB plug in (rubberless caps) making your connection to a charger or a computer quick and easy.

### **Internet - via 3G or WiFi**

This phone is the center of your digital travelling needs with a WiFi HotSpot feature allowing you to setup a wireless WiFi network around your phone. Allowing you to share your mobile phone's Internet access with other devices such as your laptop.

### **Powerbank - external battery**

The Power Bank function allows you to easily charge another phone or tablet via USB power.

### **Built-in Flashlight**

Extremely powerful flashlight is controlled by a dedicated button on the side of the phone. It delivers significantly more light compared to common mobile phone flashlights.
