INTRODUCTION EN

WELCOME TO THE EVOLVEO FAMILY OF PRODUCTS

- **Before putting this product into operation, please read this entire user manual carefully through to the end, even if you are familiar with the use of a similar type of product in the past.**
- Keep this user manual for future reference - it is an integral part of the product and may contain important instructions on commissioning, operation and care of the product.
- Make sure that other people who will use this product read this user manual.
- If you give, gift or sell this product to others, please give them this user manual together with this product and remind them to read it.
- During the warranty period, we recommend that you keep the original packaging of the product - this way the product will be protected in the best possible way in case of transport.

THE MOST UP-TO-DATE VERSION OF THE USER MANUAL

Due to the ongoing innovation of EVOLVEO products and changes in legislation, you can always find the most up-to-date version of this user manual on the website www.evolveo.com or by simply scanning the QR code shown below with your mobile phone:

SAFETY WARNINGS AND INSTRUCTIONS

- Unpack the product carefully and be careful not to throw away any part of the packaging material before you have found all the components of the product.
- Remove all packaging and marketing materials from the product before first use.
- Exercise extra caution if the product will be used around children. Always place the product out of their reach. Children should be supervised to ensure that they do not play with the product.
- Do not allow the product to be used as a toy.
- Do not shake the product and take care not to drop it on the ground.
- It is forbidden to modify the surface of the product in any way, e.g. by using self-adhesive film, spraying its surface, painting it with paint, etc.

- Charging port: USB-C
- Dimensions: 165*78*60 mm
- Weight: 130 g

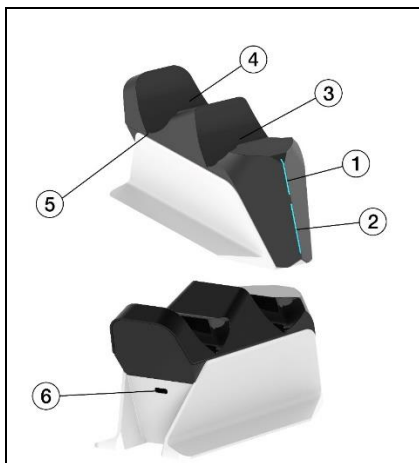

Degree of protection against electric shock:

Class III - Protection against electric shock is provided by extremely low voltage.

BEFORE FIRST USE

Check the product for protective stickers, films or other materials intended only for transport to the customer to protect the product from scratches or other damage. Remove such before use.

DESCRIPTION OF INDIVIDUAL PARTS

1) LED charging indicator for position 1

2) LED charging indicator for position 2

3) Position for driver 1

4) Position for driver 2

5) Gold plated charging pins (not shown)

6) USB-C charging port

SERVICE

1. For charging, use a power adapter with a USB-A port and at least 1A output (adapter not included). You can also power the charging station directly from the game console.
2. Place the game controller from above into one of the ports on the charging station so that the 4 pins on the

charging station make contact with the ports on the game controller.

3. When the controller is properly connected to the charging station, the red LED light will illuminate to indicate that charging is in progress.
4. Completion of charging is indicated by the red LED going off and the blue LED coming on.

CLEANING AND MAINTENANCE

WARNING: Never immerse the product in water, clean it under running water or put it in the dishwasher.

- Always make sure the product is switched off before cleaning or maintenance.
- Use a soft cloth dampened with lukewarm water to clean the outer parts of the product. Do not use harsh cleaners, thinners or solvents, otherwise the surface of the product may be damaged.
- Take special care when cleaning the plastic parts of the product, which are more prone to scratches.

Disposal: If the information leaflet, packaging or product label contains a crossed-out bin symbol, this means that in

the European Union all electrical and electronic products, batteries and accumulators marked in this way must be placed in separate waste containers at the end of their life. Do not dispose of these products in unsorted municipal waste.

DECLARATION OF CONFORMITY
